

The Aeron Chair

Some designs defy imitation.

Continuing to lead in ergonomic design.

Aeron never just sits still. We're always working to take advantage of the latest research and technology to enhance its performance.

Case in point, PostureFit®, the innovative, patented, adjustable lower-back support system that sustains a healthful posture and enhances comfort throughout the day.

It does so by filling the void between the base of the backrest and your lower back to keep your spine properly aligned.

The B size is the best fit
for most people.

The A size fits those
who are smaller and lighter;

The C size fits
taller and heavier people.

The Kinemat® tilt allows the body to pivot naturally and simultaneously at the ankles, knees, and hips for smooth, proper support in a 30-degree tilt range.

Our versatile, flexible products give people real choices. If they need something extra, we can do that, too, from modifying existing products to developing new ones.

Advanced Ergonomics

Recognized everywhere.

At Herman Miller, we give our designers the freedom to be courageous—and make history. And that lets designers like Bill Stumpf and Don Chadwick thrive.

As they created the Aeron chair, Stumpf and Chadwick followed no recipe. Instead, they challenged assumptions about form and materials. Refusing to toe the line, they crossed it to lead the market into new territory.

Both applied their strong personal convictions about humane, ergonomic design, superior performance, and environmental responsibility. And they invented a phenomenon.

Aeron is unique, yet its honest design and transparency help it blend in anywhere.

Extensive material and finish choices make Aeron a comfortable addition to nearly any interior.

Graphite Frame			Graphite Base
Smoke Frame			Titanium Base
Graphite Frame			Aluminum Base

Classic

The vertical pinstripes of Pellicle Classic have been a distinctive design element from the beginning.

Tuxedo

Pellicle Tuxedo features long, narrow triangular shapes.

Waves

Pellicle Waves features gracefully curving horizontal lines.

An Icon

The work chair that changed everything.

The entire Aeron family—work chairs, work stools, and side chairs—uses renewable and sustainable raw materials; all are durable for a long life.

Herman Miller builds the Aeron work chair responsibly, conscious of its environmental impact.

Components are easily removed and replaced, further extending Aeron's life span.

94% recyclable
Up to 66% recycled content
Easily disassembled for recycling

Like all Herman Miller products, the Aeron chair is durable for long-term performance and value.

As a statement of our confidence in its quality, the Aeron chair is covered by the Herman Miller Warranty—a straightforward promise that we stand behind that quality 100 percent.

The 12-year, 3-shift warranty covers all standard elements and includes labor on all warranty work.
